City council meetings can have a touch of humor.

The ordinance, placed on first passage.

The ordinance, placed on first, is designed to end a serious, is designed to end a serious, health hazard in the city; but of the aldermen seemed to indicate recollections of Hallowe'ens of years gone by.

Under the ordinance, 180 days will be allowed for existing price sewers leading to them to be sealed. Fines of \$10 to \$200 for under the new law. Where there are no sanitary sewers, septic tanks are authorized.

Lanks are authorized.

ENSEMBLES PERFORM—An estimated 1500 persons attend a performance of the Coolidge Junior High Latin-American ensembles at a soft drint bottling plant in Mexico City. During the program Granite City's golden key to the city was presented to Mrs. Donna Samona Lopez Matoo, wife of Mexico's president. On Friday the group appeared on live television. News and pictures of the event appeared to Liven Mexican City newspapers.

HONORED AT TARANGA—A special party called a taranga was held at the home of Oscar Varela Alnsle, coordinator of the programs of "Art and Culture for the Industries of Mexico." Here a group of band parents and chaperons ch Police Seek Wrong-Way,

udison Tavern Hour Change

ould End Issue in Venice

Close cooperation of recent years between Madison and Venice officials, along both political and governmental lines, would seem to justify a Madison action that could end a Venice problem—the tavern hours issue. If Madison ended is 4 a.m. closing law, North Venice taverns would be better able to compete with those in West Madison, and the pressure to alter Venice is 1 a.m. law undoubte edly would be eased.

Mayor Lee is right in backing strict police enforcement of the existing Venice regulations, but changing the law does not offer a solution, as we are sure many Venice reducts will tell their officials during the next few days. For uniformity of tavern hours throughout Madison county, the closing law must be altered in Madison, not Venice.

A factor which should be kept in mind is the policy of the property of t

Drainage, Zoning Remain Key Challenges Of 1962

y Challenges Of 1962.
At the start of 1962, it was apparent to civic leaders and citizens that this could be a year of great progress—if affirmative action takes place in the fields of drainage and zoning. Neither problem has been solved, but there is hope for solution, of both before the year is over.

Residential, commercial and industrial expansion of Grantic City has been halted since July 1, 1961, by state order, and this will continue until sewage treatment plans are adopted. Approval of the citizens' pollution abatement-dayinage program in the Oct. 2 election can halt pollution both at the river and in local lawns and streets—once and for all time providing the basic two-pipe system that is so vital to a satisfactory Quad-City economic outlook.

growing tax burden, is curtailed by the lack of zoning for unincorporated areas. A county zoning commission is to conduct six more township hear-ings and then submit its zoning recommendation to the County Board of Supervisors this fall.

the County Board of Supervisors this fall.

While neither proposal is assured of passage, it is a sure thing that the economic well-being of every local family will be affected by the progress or lack of progress on drainage and zoning.

For his own benefit, and the future of his children and granichildren, each resident, voter and taxpayer should do all he can to a s s ure "Yes" votes by the public on Cranite City drainage and by County Beard members on Madison county zoning.

"Yes" votes by the proage and by County Board members on music county zoning. We urge Quad-Cityans to call or write the local members of the County Board to ask that they support the zoning proposal. They are: Cran-ite City township—Neson Hagnauer, Milton R, Allen, Robert Gaughan, John G, Graham, Homer 'Cal' Pendeton and William B. Webb jr.; Venice township—Achter M. Illinois State Taxes Rated

Low—Through 1960

Comparisons cited this summer by State Auditor Howlett, showing low taxation in Illinois, are interesting. But it should be noted that they are based on a U. S. Census Bureau study made in October 1960, before most of the present state officials took office. Tax increases since then, and the constant talk of more lax boosts, may lead to a different result in the next survey.

In the report, full-time state employees numbered 56.1 per 10,000 population, lowest of any of the 50 states except New Jersey. Those working of the 50 states except New Jersey. Those working 10,000 people, more than four times the number employed by the state; Illinois was 29th in the ratio of local government payrollers to population. The Illinois state governments payroll was \$22.9 million, compared to \$106.1 million for local governments, such as counties, cities, townships and school, park and levee districts. The state's portion of the total, 17.7%, was the lowest cher, or the state pyroll has risen, mostly to improve our state universities and mental health institutions, but it is still puny compared to the local governments. The auditor's major point is that Illinois is—free manufacture of the state of the stat
